## C. Installation

You can install the unit on the truss or ceiling; Use clamps to fix the unit to truss. Always ensure that the unit is firmly fixed to avoid vibration and slipping while operating. Always ensure that the structure to which you are attaching the unit is secure. Also always use a safety cable that can hold 10 times of the weight of the unit when installing the fixture.

## D. Replace the lens

You could replace the other lens if you want to, as following picture.

You should screw the lens roller to take it down as NO.1, and bring the lens out as No.2. Then you could replace the lens that you want to.

Notes: the lens roller has two slots for the lens; you should pay more attention that the latest slot is for the 34° lens, and the far slot is for 60° lens.
